Site is a structure by a land/water interface.

Structure is tall, solid, massive, odd-shaped w/many angles.

Structure is composed at least partially of masonry - block, & may have a metal roof - at the very least metal plays an important role w/ the roof. Observation seems to be an important element of the site. People present are

"ming ling" & exhibit many different emotional states - i.e. anger, stress, relaxation, apathy. Associated w/ site are

displays involving science, technology, culture, economics, trade, accomplishments, & magic. Some museum-like association is involved. Impression of meetings associated with site.

Topmost room has wooden floors, extensive windows,

Some furnishings, & may be an odd shape "like octagonal"

Quiet, subdued atmosphere is present in room, almost reverential or religious. ~~Room is~~ Access to room is

limited, & sounds in room are muffled, lighting is mellow & filtered, furnishings are plush & clean & room evinces

a sequestered feel. Room has a Catholic feel - with an impression of mass, cardinal & the Vatican being present.
